(1 800mm high X 374mm deep X 600mm wide)

For our full range of products and sizes go to www.castletimbers.co.za

ASSEMBLY INSTRUCTIONS:

1. Place a pair of the uprights onto the floor to form the one side panel. The holes on the side of the shelves will need to line up with the holes on the uprights.
2. Fit the side of the shelves into the groves of the two uprights on the floor.
Note: one of these shelves has screw holes on top of the shelf and is longer than the others. This is the top shelf. It is only attached on step 5.
3. Lay the remaining pair of uprights onto these same shelves to form the second side panel.
4. Secure the screws through the uprights and into the side panels. Repeat the process again on the other side.
5. Fit the top shelf onto the four uprights.
